

## **Single Cash Management Solution**

## Co-Shared Processing Model – Supporting Multiple Divisions, PM Systems & Clearinghouses – to a Single Receiver

Data Capture, Splitting, Validation, Bank Reconciliation, Document Imaging & Reporting Services

ReMedics outsourced remittance management services help streamline the payment posting process of all paper and electronic remittances for practice aggregation billing with a single Tax ID. Our proprietary payment processing technology automatically checks the data for accuracy, system errors and missing information that can delay payment. Co-mingled remittances and corresponding bank deposits are segmented (split) by practice group, balanced, and reconciled daily at both the business unit and enterprise level.
